

Landcare Badge

Cub Scouts can achieve a Landcare Badge which encourages them to get involved in environmental activities in their community.

Requirements

Participate in any three Nationally-accredited environment events either supported or run by Landcare Australia (such as Landcare Week, Planet Ark's Tree Day, Keep Australia Beautiful and Clean Up Australia)

OR

If you are a member of a Landcare group, show your Cub Scout Leader evidence of your membership and regular attendance as a Landcare volunteer.

You will need to spend at least 10 hours participating in either of the above requirements in total (not 10 hours per event). This must be completed within a 12 month period.
