Reflecting on WSJ2023

On Friday, I was lucky enough to be a guest at 1st Ballan, where I witnessed a presentation to the Group and community members about their WSJ2023 experiences. I learnt a lot about convenience store food, the highlights of Seoul, International badge swapping and how to survive a camp in 35 degrees with 80% humidity.

Despite all the challenging events, it was clear that they all experienced something they'll never forget and neither will Tony their Leader who also attended!

It was great to hear the conversation turn to the WSJ2027 in Poland, the 2025 World Moot in Portugal and discussions of Branch Friendship Tours to KISC in Switzerland.

To earn the International Ambassador badge, Scouts need to take part in an International Scouting activity and present back to their Group on their return. These Venturers have definitely earned this badge and are now passionate advocates and Ambassadors for International Scouting.
